University of Ankara, Agricultural Faculty, Plant Protection Department, 06110 Diskapi, Ankara, Turkey (e-mail: sultan.cobanoglu@agri.ankara.edu.tr; bayram@agri.ankara.edu.tr).

**ABSTRACT** - *Zhangiella duzgunesae* **n. gen., n. sp.** (Acari: Erythraeidae) is described and illustrated from under bark of *Pinus nigra* J. F. Arnold, 1785 in Camlidere village, Ankara, Turkey. A key to world genera of Erythraeinae (larva) is presented and *Opserythraeus* is considered a junior synonym of *Neophanolophus* Shiba.

Internat. J. Acarol. 33(4): 359-363.
