**ABSTRACT** - The tribes Macroseiini Chant, Denmark and Baker, Phytoseiulini **n. tribe**, Afroseiulini **n. tribe** and Indoseiulini Ehara and Amano are diagnosed and reviewed. Four genera are included: *Macroseius* Chant, Denmark and Baker, *Phytoseiulus* Evans, *Afroseiulus* **n. gen.**, and *Gynaeseius* Wainstein. These genera are diagnosed and representative species are figured. The genus *Macmurtryseius* Kolodochka and Denmark is proposed as a junior synonym of *Gynaeseius*. The generic name *Gynaeseius* is the senior synonym of *Indoseiulus* Ehara.

**Key words** - Acari, Phytoseiidae, Amblyseiinae, Macroseiini, Phytoseiulini, Afroseiulini, Indoseiulini, *Gynaeseius*, predatory mites, taxonomic revision.
