

**CONTENTS**

1. Two new species of <i>Tetranychus</i> (Acari: Tetranychidae) infesting corn in inner Mongolia, China. <b>S. EHARA, T. GOTOH and X.-Y. HONG</b> .....	339 - 345.
2. Anatomy and ultrastructure of genital papillae in the Parasitengona (Acariformes). <b>A. B. SHATROV</b> .....	347 - 358.
3. Fine structure and functional morphology of the spermatodactyl in males of Heterozercionidae (Gamasida). <b>A. DI PALMA, B. S. GERDMAN and G. ALBERTI</b> .....	359 - 366.
4. <i>Trichoribates zingerlei</i> , a new species of oribatid mite from the southern Alps, Italy (Acari: Oribatida: Ceratozetidae). <b>B. BAYARTOGTOKH and H. SCHATZ</b> .....	367 - 372.
5. The genus <i>Tetrapolipus</i> (Acari: Podapolipidae), parasites of tropical and semitropical Cerambycidae (Coleoptera), new distribution records and descriptions of four new species. <b>R. W. HUSBAND</b> .....	373 - 384.
6. <i>Amblyseius filcae</i> Denmark and Villanueva, n. sp. (Acari: Phytoseiidae) found on <i>Viburnum</i> in Florida: Description, life cycle and feeding studies. <b>R. T. VILLANUEVA, J. C. V. RODRIGUES, W. C. WELBOURN, H. A. DENMARK and C. C. CHILDERS</b> .....	385 - 387.
7. <i>Unionicola (Wolcottatax) weni</i> n. sp. and <i>U. (Wolcottatax) arcuatoides</i> Vidrine (Acari: Unionicolidae) from freshwater mussels in China. <b>M. F. VIDRINE, D. JOUBERT, L. B. THOMAS, A. E. BOGAN and W. X. PING</b> .....	389 - 392.
8. Acaricide-mediated suppression of <i>Panonychus citri</i> (McGregor) (Acari: Tetranychidae) in pear orchards in Japan. <b>T. GOTOH, T. KORENAGA, S. IKEJIMA and T. HOSHINO</b> .....	393 - 402.
9. Genetic differences among sibling species of the subgenus <i>Dimockatax</i> (Acari: Unionicolidae: <i>Unionicola</i> ): Heterogeneity in DNA sequence data supports morphological differentiation. <b>B. R. ERNSTING, D. D. EDWARDS, M. F. VIDRINE and H. CUN</b> .....	403 - 407.
10. Analysis of individual oil gland secretion profiles in oribatid mites (Acari: Oribatida). <b>G. RASPOTNIG and P. FÖTTINGER</b> .....	409-417.
11. Function of the urnulae in protecting the red velvet mite, <i>Balaustium</i> sp., against water loss and in enhancing its activity at high temperatures. <b>J. A. YODER, C. M. RIGSBY and J. L. TANK</b> .....	419 - 425.
12. Influence of simulated acid rain on population dynamics of carmine spider mite, <i>Tetranychus cinnabarinus</i> (Boisduval) (Acari: Tetranychidae) and its host plant. <b>J.-J. WANG, J.-P. ZHANG, W. DOU and Z.-M. ZHAO</b> .....	427 - 434.
News .....	435 - 447.
Index .....	448.

Date of release - December 1, 2008.

Photo on cover page 1: A photo of *Musca domestica* (Diptera) with many phoretic females of *Macrocheles* sp. (Acari: Macrochelidae) as well as some hypopi of an acaridid species phoretic on the macrochelid mites, collected by Mitox in the Netherlands, taken by Gerard Pennards, identified and supplied by Dr. Farid Faraji (farid.faraji@mitox.org), MITOX Consultants, P.O. Box 92260, 1090 AG Amsterdam, The Netherlands.

Index and abstracts of IJA - These are published throughout the world by most well known companies including Thompson ISI (Current Contents/Agriculture, Biology, and Environmental Sciences, ISI Alerting Services, Science Citation Index Expanded) services, Biological Science Information Service/Biological Abstracts, CAB Abstracts, Cambridge Scientific Abstracts, Pest Directory database of ISPI (International Society for Pest Information), Zoological Records, All-Russian Institute of Scientific and Technical Information, and Elsevier Bibliographic Services.

In 2009, IJA will begin its 35th year and will be published by Taylor & Francis Group, London, UK. The Impact Factor (IF) of IJA is: 0.464 (2007).

**THE LAST, HISTORICAL, FAREWELL ISSUE FROM INDIRA PUBLISHING HOUSE - VIKRAM PRASAD, M.D.**

Photos (from top to bottom) - S. Ehara, A. B. Shatrov, A. Di Palma, W. Husband, R. T. Villanueva, G. Rasputnig, and J.-J. Wang.
